## **Myo Gesture Tutorial**

The MYO is a creative controller for interacting with your ez-robot. It uses gestures and an accelerometer to trigger actions, events and move servos. This tutorial demonstrates how to add a Myo to your EZ-Robot.

Here's a link to the manual page: <a href="https://synthiam.com/Tutorials/Help.aspx?id=206">https://synthiam.com/Tutorials/Help.aspx?id=206</a>
