SYNTHIAM

add more voices

add more voice to your projects
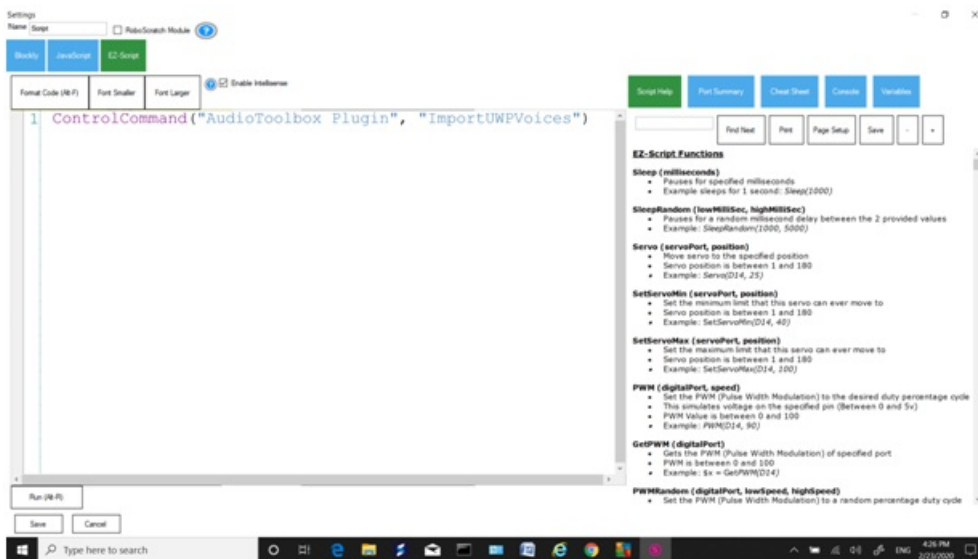

Last Updated: 2/25/2020

ⓢ More voices

On your computer (windows 10), go to settings, then go to "time and language", then "language" (+ add preferred language) (choose a language to install)

Ⓢ get audio modules

Get many new voices in the audio - â€œSpeech Syntheses settingsâ€ voices
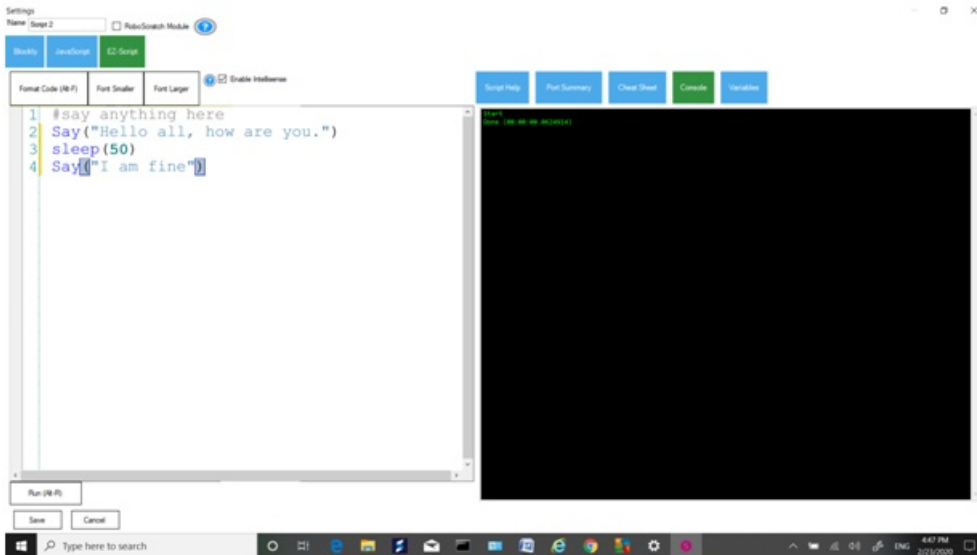

Add audio - AudioToolBox plugin

ⓢ Open a script, add:

ControlCommand("AudioToolBox Plugin", "ImportUWPVoices")

ⓈAdd another script and then save

Then check your â€œSpeech settingsâ€ voices â€" all the ones you added will be there ïŠ Add another script and then save

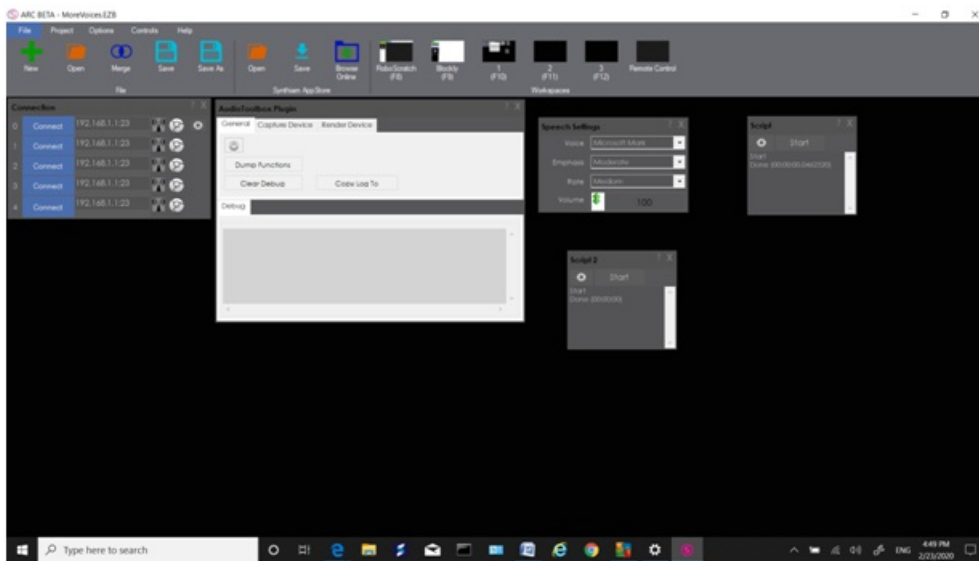

for this scrip:

your computer's audio

code: (you can say anything here) I just put:

Say("Hello to all, how are you") sleep(50) Say("I am fine")

ⓢ get windows Mark voice

Mark voice https://www.trishtech.com/2016/12/enable-hidden-text-to-speech-voices-in-windows-10/

My ARC Picture

That is it, enjoy! EZAngï»¿
