

Error loading the DLL required for this assembly plugin.

DLL Assembly Resolve Plugin Error:

System.Exception: Unable to find a DLL:

C:\Users\Public\Documents\EZ-Builder\Plugins\5edbbb5d-d9ef-4440-9e
cf-858ec24b8746\ARC.dll.

This file must be in the root folder of this plugin. Also, if it is already in the same folder, the DLL filename and the assembly name may be different. To correct this error, either ensure the file is in the root folder of the plugin, or rename the DLL to the assembly name as presented here in this error.

If you need more explanation, ask for details on the Synthiam
Community Forum.
