

About Localization EZ-Builder

(What to translate. Here only examples of objects in which for all windows it is necessary to localize inscriptions.)

1. Main menu

2. Pop-up menu

3. Drop-down lists

4. Buttons

5. Check-boxes

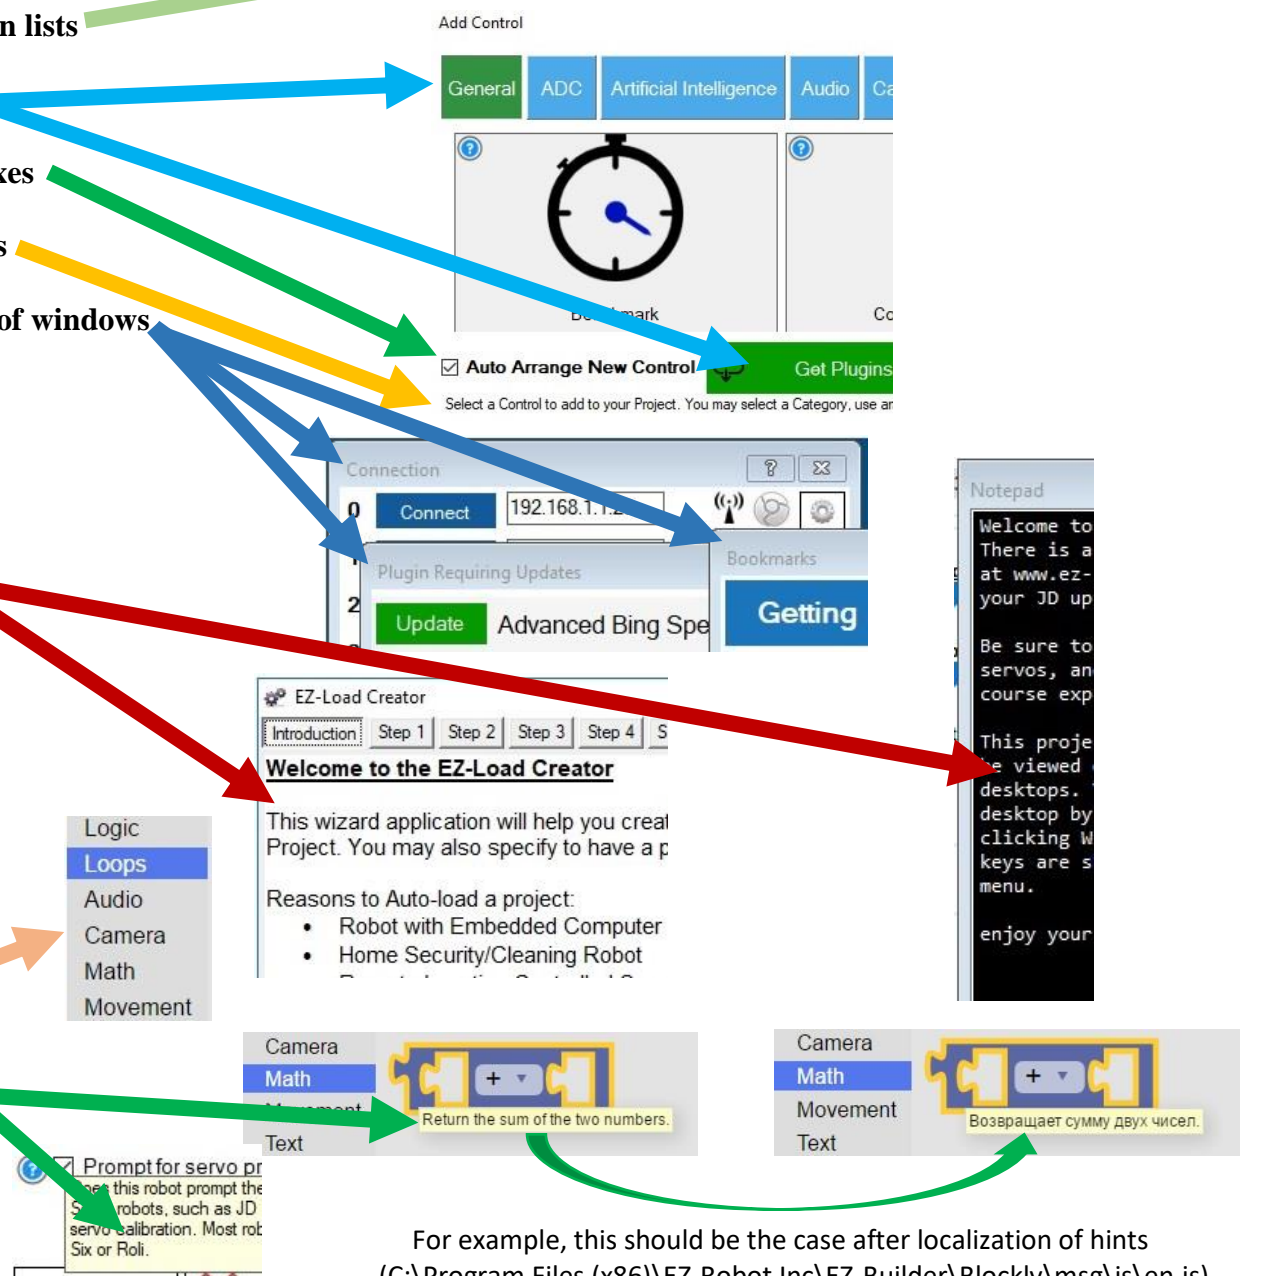

6. Comments

7. Headings of windows

8. Text

9. Lists

10. Hints

For example, this should be the case after localization of hints
 (C:\Program Files (x86)\EZ-Robot Inc\EZ-Builder\Blockly\msg\js\en.js).
